### **NEWS REVIEW OF CURRENT EVENTS**

House Passes Tariff Bil Boosting the Duties on Nearly All Articles.

BY EDWARD W. PICKARD MPORT duties on many agricultural and industrial products are raised to new high levels by the Hawley tariff bill which was passed by the house of representatives. The final vote was 201 to 147. Twelve Repub-Henna voted against the measure, but on the other hand twenty Democrats, mostly from the Southern states, voted for it. The dozen Republicans in opposition were: A. II. Andresen Victor Christgau, Frank Clague, G. G. Goodwin and C. G. Selvig (Minn.) Merlin Hull (Wis.), E. H. Campbell (lowa). C. A. Christopherson (S. D.), T. J. Halsey (Mo.), W. P. Lambertson (Kno.), F. H. La Gunrdia (N. Y.), and James M. Beck (Pa.).

The Republicans from central agricultural states voted against the bill chiefly because of fallure to boost duties on dairy and other farm prodnets high enough and because of the imposition of duties on building materials. The increased duty on sugar was the chief reason for the adverse vote of Representative La Guardia.

All of the more important changes made in the tariff by the measure are upward except that the rates on children's books are reduced. So, too, is the rate on varillons, if any.

The bill ends the terms of members of the present bipartisan tariff commission and provides for the appolatment of seven new members on a nonpartisan basis, with salaries of \$12,000. The flexible tariff system is retained, but with a change in formula for the ascertainment of costs.

The senate thance committee, to whose hands the Hawley bill is now committed, will take several months to rewrite the measure, after which it will be debated by the senators, During that period, it is hoped, congress can take a recess and escape some of the bot weather.

BYTHE decisive vote of 57 to 20 the senate passed the combined census-reapporth ament bill that was so obnoxious to the drys of the South. Its main features have been told before in these columns. Passage of the measure by the house was considered a certaluty.

PRESIDENT HOOVER'S first Mem-Arlington National cemetery, was an earnest plea to all the nations of the world to Join in the peace movement by making the Kellogg pact effective. He preed that they all reduce their payed armaments and payr building programs to the limit required by the needs of national defense. The main tenance of permanent peace, the Prestdent declared, would be the highest honor that could be accorded the memory of those who had died in

MRS. MADEL WILLERRANDT TO signed as assistant attorney keneral in charge of dry law prozecutions, and the President accepted the resignation in a letter expressing deep regret at her leaving the government service and appreciation of the work she has done. Sto is to become Washington counsel for the Aviation corporation.

Reports that Mrs. Willebrandt planned to frace the government had been current slace it became known that President floorer had no intenof placing ter in charge of all prohibition enforcement when the dry bureau is transferred from the Trensuer department to the Department of Justice. It was stated in Washington that Mr. Houver would not select Mrs. Willsbraudt's successor until about the time she retires, which will be

DIESIDENT HOOVER'S special lay enforcement commission held tix first meetings and began the work of organization to get in readiness for its xigantle task which it is believed will keep it bouy for two years, in

a brief address to the commission the President said:

"It is my hope that the commission shall secure an accurate determination of fact and cause, following them with constructive, courngeous conclusions which will bring public understanding and command public support of its solutions. The general public approval of the necessity for the creation of this commission and the extraordinary universality of approval of its membership are in themselves evidences of the responsibility that lies upon you and of the great public concern In your task and of the hopes that you may succeed.

"I do pray for the success of your endeavors, for by such success you will have perfo med one of the greatest services to our generation."

COL. CHARLES A. LINDBERGH rled Monday afternoon at the Morrow estate just outside of Englewood, N. J., and the cohorts of reporters and news photographers, who have dogged every move of the young couple, knew nothing about it until the affair was all over and the bride and groom had sped away in an automobile. Much as the people of the United States are interested in Lindy and his doings, a gleeful chuckle ran all across the continent when it was learned that he had put one over on the press and camera men. The wedding ceremony was of the simplest, with no bridesmald or best man and with only members of the families present. The nuptint service was conducted by Rev. Dr. William Adams Brown of Union Theological seminary, a close friend of Ambassador Morrow. At its conclusion Colonel and Mrs. Lindbergh entered a waiting automobile, clevorly evaded pursuing reporters who thought they were just going for n ride, and disappeared entirely from the ken of the public.

MME. ROSIKA SCHWIMMER'S long light for naturalization in the United States came to an end when the Supreme court affirmed the decision of the Chicago Federal District court that the famous Hungarian radical and pacifist is unfit for Amerlean citizenship. The majority of the high tribunal, in an opinion read by Justice Butler, reversed the Circuit Court of Appeals and found with the Chleago District court, that Mademotselle Schwimmer's admitted lack of nationalistic sense and boasted "un-compromising pacifism" make her "liable to be incapable of that attachment for and devotion to the principles of our Constitution that is required of oliens seeking naturalizallon." Justices Holmes, Brandels and Sanford dissented.

A NOTHER decision by the Supreme court upheld the Presidential "pocket vetoes" which have been used by nearly all Presidents to kill legislation they deemed undestrable. The opinion interpreted for the first time that section of the Constitution which provides that bills not signed by the President within ten days or returned without his alguature before congress adjourns shall not become law. It cathe as a blow to those advocates of government ownership and operation take inelated that the Muscle Shouls resolation, "packet retoed" by Prest dent Coolidge at the end of the first

sension of the inst congress, became law without his algoriture. Schalar Sorris at once introduced phother resolution identical with the one tilled, and it was reported favorably by the committee on agriculture, but the Nacraskan had little hope that the senate could act on it before the summer freez.

THERE is a great to-do over govpines. Insular Auditor Ben F. Wright refused to issue a certificate releasing the million-dollar fund for a whart development scheme at the city of Ololo, asserting the contract was invalld. He was sentenced to prison for this refusal but has been set free by a habeas corpus writ granted by Supreme Court Justice Street, and thus the case will come before the full court in July. Americans in the is-lands say Mr. Wright sought to protect American funds and faced the penliculary for protecting the treasury, which in turn represents millions is bonds tesued by the bureau of pubHe works and chiefly beld by Americans. If he loses in the Island courts he contemplates carrying the case to the Supreme court of the United States. Opposed to Mr. Wright are Manuel Quezon and his followers, who are striving for complete autonomy.

PEACE, at least to a degree, has come to Elizabethton, Tenn., for the striking workers in the textile mills voted to accept the terms of the employers and apply for reinstatement in their old jobs. The settlement was largely due to the efforts of Miss Anna Weinstock, who was sent to the scene by the federal Department of Labor, She obtained from the rayon mills an offer that was much more conciliatory than any previously made. The companies agreed not to discriminate against any former employee because of his or her udillation with the union, provided the employee's activities were legitimate and were not carried on at the plants. The management agrees to meet a committee of employees for the purpose of adjusting any grievance.

THERE was great excitement among the universities of the Middle West when the faculty committee of the Western Conference, usually known as the Big Ten, expelled the University of Iowa from the conference, effective January 1, 1030. Put in a few words, the reason for this drastic action was that Iowa had been administering soculled athletic funds for the support of Individual athletes. The Iowa authoritles, from President Jessup down, professed to be exceedingly surprised by the expulsion, and the student body in lown City was tremendously worked up. There were ominous threats that the action would result in the breaking up of the Western Confe other institutions also were vulnerable. It seems not unlikely that the date of nctual expulsion was set so far ahead in order that the trouble might be ad-Justed meanwhile and Iowa permitted to retain her membership, and there are predictions that this is what will happen.

The championship track and field meet of the Big Ten was held at Northwestern Just before Iown was expelled, and was won by the University of Illinois. Two new world records were set. Tolan, young colored sprinter of the University of Michigan, ran 100 pards in 10 5-10 seconds; and ftockaway of Ohio State university negotiated the 220 yards low hurdles In 22 8-10 seconds.

RAY KEECH won the 500 mile automobile race in Indianapolis, his average speed being 03.585 miles an hour, Louis Meyer was second, Billy Spence was killed when his car was overturned. Out of thirty-three starters, thirteen finished, dividing the prize money of \$100,000.

JAMES KELLY and R. L. Robbins, fixing a re-conditioned plane over Fort Worth, Texas, shattered all records for sustained flight, remaining up for 172 hours and 31 minutes. They came down then only because their propeller blades had been cracked by hall. Lint, W. G. Tomlinson of the navy wen the Curtles seaplane trophy, making a new speed record of 175 miles

REPARATIONS experts reached an almost complete agreement in Paris and if the German reservations can be adjusted the great problem will soon be solved. As the plan stands Germany will pay a total of about eight and a half billion dollars over a period of fifty eight years, the annulty figure being approximately \$157,000,000, Payments under this Young plan are to begin on September 1 The matter of carly avacuation of

the libineland, being purely political. was not considered by the experts. Dr. Gustav Stresemann, German fer eign minister, announced he would be in Paris Monday, when it was hoped the Delglans and Germans would reach a selflement of certain disputes that hampered full agreement.

A MANULLAH has abandoned his vitoris to regain the throne of Ar. chanistan and has passed through India on his way to italy, where he will reside. The former king does not believe Bacha Sakao, who selzed the throne, will be able to retain it very long, his possible successor being des. Nadir Khan.

#### MILTON

Freemon Morse and Arthur Carrol had the misfortune to go over the bank near E. L. Buck's in Mr. Carroll's ear. They were both badly shaken up and Mr. Morse received cuts which made it necessary to take him to the Lowiston hospital. Mr. Morse is

reported as gaining. Urban and Harland Buck, Harry Poland, Edith Poland and Daisy Buck attended grange at Norway Friday night. The Winthrop degree team worked the first and second degrees on Norway and Bryant Pond candi-

#### Relief from Gas Stomach Pains **Dizziness**

The doctors tell us that 90 percent of all sickness is due to stomach and bowel troubles. You can't be well if your digestion is bad; you are likely to get sick unless you relish food and digest it properly.

Tanlac has a wonderful record as a relief from digestive troubles, even those of years' standing.

Mrs. H. D. Wickett, of 139 Fourth St., Old Town, Me., says:
"I didn't enjoy anything to eat and "I didn't enjoy anything to eat and had to quit milk and coffee. Now I do the cooking, washing, ironing and housecleaning and it doesn't tire me out."

If you suffer from gas, pains in the stomach or bowels, dizziness, nausea, constipation, or torpid liver; if you have no appetite, can't sleep and are nervous and all run down, you need Tanlac. It is good, pure medicine, made of roots, herbs and barks. Get a bottle from your druggist today. Money back if it doesn't help you.

rty carried by the states is made up

many activities, although the total

the most important items are police.

expenditure was but \$50,747,000. Some

0.754,000; militla and armorles, \$10,-

\$,000; fish and game warden, \$4,-

766,000; regulation of financial insti-

tutions, \$4,770,000; regulation of in-

regulation of public service corpora-

In developing and conserving nat

nral resources, the states spent \$62,

696,000. Of this, \$52,144,000 went to

ngricultural projects, the most impor-

tunt of which were extension work

and development of live stock. Con-

ervation of health and sanitation took

25,549,000, the most important items

n which were prevention of commu-

ife, and food inspection.

icable diseases, conservation of child

vas expended, going to supervision.

conds, waterways, bridges and abo-

ition of grade crossings. The lion's

share, \$143,130,000 went to ronds. The

tem next in importance after high-

178.580,000. The important items un-

er charities with expenditures, are

utdoor relief, \$1,365,000; care of chil-

lenf and mute, \$12,017,000. The gen-

ral hospitals cost the states \$11,140.

00; those for the Insane \$77,539,000,

ind those for the feeble-minded, \$12,-

6-10,000. Institutions for correction

may be divided into those for adults,

and those for minors, the former cost-

ing \$34,051,000, and the latter \$14,-

The cost of education was by far

the most important in the states' ex-

penditures, taking \$415,282,000, while

receiving but \$3,541,000. Of the edu-

pervision, \$134,604,000 for state insti-

tutions, while \$205,262,000 was appro-

printed to minor civil divisions.

BETTY LEE found the "Public No-tices" in the paper the Sunday she states. The cost of carrying on the was eighteen. Hers was a magazinegovernments was \$86,871,000, of which cover profile, and she was the daugh-\$5,442,000 went to the legislative for of strict parents. Their home was pranch, \$47,267,000 to the executive in Grangerville, a Hudson river ham-

branch, and \$0.070,000 to the work of let. All week she typed letters in her father's real estate office. Sundays she revelled in the world of her dreams-New York-mirrored for her eager, supple mind by the Sunday

Betty retrieved the scattered sections of the paper after her father had flung it on the floor four ways from his Morris chair, sorted it into sectional sequence, and carried it to

a silent, leafy dell in the woods nearby. Sparkling eyes rejoiced with "Peachy J. Flagg of Borough of Mansurance companies, \$3,174,000, and the hattan," whose address was wanted by Glasgow sollcitors. Waiting at the lawyer's office, surely, was a good-sized golden plum for Penchy from a renegade uncle, perhaps, whose family had burned his picture when he skipped with the church funds and lost himself in the dinmond fields of Kimberley.

Keenly imaginative, Betty never missed these public notices. They were her first dramas. She built a story round each one, complete, with east of characters, fitting sequence For highways a total of \$150,039,000 and a climax, and or glad, at the dic-

tum of her mood. Ever since reading the story of Dorothy Blaine, describing how Yates Chandler, famous young illustrator, had found her pale and hungry, crouchways was that for charities, hospitals ing on a subway beach, and lifted her corrections, receiving a total of to such fame as a model that her face became a familiar feature of every newsstand and ilbrary table in the land-ever since then Betty had reren, \$7,571,000, and care of the blind, | solved to go to New York and become nn illustrator's model. And, if possible, Yates Chandler's model.

It would be so much more inspiring than typewriting. How to do this without estranging her parents? They definitely disap-

proved of Betty's dream, and there

had been many a family "scene" over If. An idea popped into her head from a bright, blue sky. Why not write him frankly and simply and explain recreation was relatively unimportant, her dream? Send him one of her high receiving but \$3,541,000. Of the edu-cational costs, \$5,783,000 went for su-cycry one admired! Finally, ask him to have a heart-to-heart talk with dad when dad went to New York next

Both letter and photograph were posted to the Chandler studio address. For a week Betty trenmfously anticl-

pated a reply. But no response! A month after her disappointment Betty and her friend; Mirlam, were motoring in Alfriam's small roudster THE CITIZEN OFFICE one Sunday afternoon. The tacing of low hills that fringed the they valley town on the river was the color of a gorgeous carpet of Bagdad, for au-BETHEL LODGE, No. 97, F. & A. tumu was early.

#### At Silvers & Stone's

By JANE OSBORN Ö00000000000000000000

Wilen Nancy Stone was fifteen she began selling kitchen utenslls at Silvers & Stone's after supper on Saturday night's. Nancy's father was half owner of the store, which did more business than any three other hardware stores in the county put together, but Nancy had asked to do it to start with for the sake of earning a little extra spending money. At the time Malcolm Silvers, just through high school, had joined his father in the business.

Nancy had not tried to hide her admiration for the tall, fine-looking son of her father's partner. One evening after closing hours Mr. Stone had suggested driving Mr. Slivers home in his car, and Malcolm had taken the hint and had asked permission to drive Nancy home in his father's car, Nancy and Malcolm became engaged. That was something that seemed to have been settled some time before Malcolr went through with the for malities of a proposal and Nancy, who had come to take Malcolm for granted, murmured acceptance,

Now Nancy was twenty and Mal colm was twenty-three and they were driving home after a Saturday exning that had been especially prosperous to the business which they would one day inherit.

"Of course, you like hardware," Nancy taunted Malcolm. "It's your whole life-hardware," "I don't see why you lump to con-

clusions," said Malcolm. Then, after a pause, "As a matter of fact, I leath It-1 loath hardware." "You'd say unything to avoid an

argument," sald Nancy, "You buven't any idea of the way I feel about it. Sometimes I could just run away." Sancy pansed and tooked at Malolm, but Malcolm, to her surprise.

and not turned to look at her. "I'd like to cut loose myself," he aid at length. "I don't particularly hanker to lead a life that has been cut out for me, either." Then an-

other long passes. "You started it What would you do if you did go away in Nancy took a long breath, stretched out her arms, and then felt at a loss to know prochady what to say, "There

are ever so many thing I eaght do." she said. "I'd so somewhere where I'd have an opportunity. I'd want to be free; really to live, to think, Have you any brallent idea for your fature If you have up hardware?" "I have," said Malcolm shortly.

"Well, if that's the way you feel, we might as well call our engage

found relief that sie had untlepated. "It's O K. with me," said Malcolm.

"If that's the way you feel about it." And so witten a few days of each Grange was held on Saturday night with other Names and Malcolm told their fathers of their broken engagement, and started both to seek their for innes mart from hardware.

Three months later Mr. Stone appeared at the usual time on Saturday night and with him came Natay. limbing a little thinners a little less brogant than count. Mr. Silvers, who was measuring chicken wire at the time, lunked up in surprise.

"Namy's lead; for good," said Mr. Stone, gle-fully "Saya she'll come hark to sell Litchen things Saturdays, as usual, if we nant bee."

As soon on Mr. Silvers was at 1th erty he went to Nancy and taying a rough hand mucly on her shoulder. sold: "I'm glad soure back, my girl - easy perhaps sou'd rather leave eatly. Maliging coming back on the right thirty from the East. He's com make out quite so well as he expected. Went up thinking he could heat those old fellows in Wall Street attheir own gather funny you two neser can into each other just by chance.

Christmas !" We dumped our deck load of tumper into the sen, and cleared the deck for a big time, I had a Christmas free that I had brought from home We set it up. Before the Sceadler left port, Frankeln Beetlin Krupp had sent us a bage box full of Christmas presents, semething for every man. We opened it and found clothing, elgars, pipes, eigarettes, eigar holders. knives, liquor, soft drinks, and musical instruments.

It was the merriest Christmas of our lives. Singing "Yo-ho" and cheered tile with many good bottles of rum, we hended south to play our role as buc-

#### CHAPTER IV

We Capture the Gladys Royal and the Lundy Island "All linnds on deck!"

Aloft my boys flew, into the rigging and up the ratlines like monkeys. "Loose the fore-taups'l!" boomed up from the quarter deck.

"All gone, the fore-tausp'l," they

"Loose the gn'nts'ls and stays'ls!" The sails were sheeted home and were alling out. We didn't lose much time in getting her away. Lying over on her beam ends and running before the wind, we set our course for Ma-

delra. We know that Just off Gibraltac would be one of our best hunting grounds, so we cleared away the remains of our Norwegian camoulinge, and after a few days we were as spick and clean and orderly as a German nuxillary cruiser should be. We were the Irms no longer, but the Seeadler now, although I felt a pang of regret at letting go the name that had served us so well and brought us luck

There was constant labor on the motor. The lubricating off we had was of poor quality. Oll, like many other things, had become scarce in Germany. Our enterprise and the enthusiastic support of only a few of the officials at the admiralty. The others thought it certainly foredoomed to failure, and did not want to risk too much on it. Among these were the heads I of the department that supplied as with oil. A salling vessel under the pressure of sall nearly always lists to one side. The work of the motor was hampered by a leaning position. We salled most of the time throughout our cruise with the motor dismantied and

Jammer against steamship was con-

sidered a ridiculous idea. We would

not need great broadsides of cannon in

capturing salling vessels. We tried

to make up for our lack of gun power

shout rang outs

"Ship ahoy."

"By Joe," and the captain pounded the rail with open admiration, "y a under repairs. fooled me bloody well. It was the We had only two guns, and only one d-dest trap t ever saw," at a time could be brought into action against an enemy. Our orders were to attack salling ships only. Wind

I sent a prize crew abound the Gladya Royal with orders to have her follow the Secadler. I wanted to walt and blow her un after nightfall. Cruispre might be reaming sumewhere in these parts, and it would be made to run the risk of attracting their attention with the mand of an explusion.

We photographed our capture carefully. At dust on transferred the steamer's twenty six men, white and black, to our slup. The raptain brought his belongings alward. I also sent Lieutenant Preiss to puch up everything afeard the captured ressel that he thought we might need and ferry it over. He displayed excellent Judgment, too, and turned up with a welcome store of excellent provisions We sallars could be content with a sallor's fare whomer er need be, but we wanted our gon, a to disp well at all times to help make up for the sor-

renore a ship first. A lealous risales rose of tosing their ships. grew up between the lookouts to Preiss and his men planted a femb each raged a tremendous thirst for in her hold, lit the time fuse, and that bottle of champagne. All day took to the hours. Fifteen misuter passed. Then the Madys Royal trem On January D. off Albrahur, the bled fore and aft.

She went down stern first, and in ten minutes har forward quarter stuck ( straight out of the sea. Her how resteamer heading toward us. Flying mained above water for a long time. A stemmer have tota sight. She car ried side lights, and from that we judged her to be a neutral. Suddenty a second explosion, from the accumu

without names. She looked of Britlation of air pressure, burst the bow ish build, too. Our orders were not of the Gladys Royal. With a final to tackle steamers. Well, you can quiver, she took her last plunge into promise a lot. We raised the signal: the depths and sild out of sight, while "Chronometer time, please." we scurried away into the night with A sailing ship long away from port

all sails set. Captala Chewn was agreeably sur prised to find himself assigned to a cozy cabin. His only complaint was that he had no one to enjoy it with blm. This sociable mariner liked com coat to conceal my uniform. Those of the crew that had clies hid themselves phny. So we promised to supply him with companiens as soon as possible

Much as we wanted to please Cap taln Cheun and show him that we were arrammodating hosts, we allowed the next ship to sall by in prace. Ela was a British passenge steamer lound through Gibraltar. We had rown enough for all her passen gers, but we did not want to be both efed with women and children.

"At mon, with a heavy sea running we sight d a steamer cutting diagon ally access our course. No flag, no time. We eignnied her for informaflor, but there was no response. Sureshe that be an Englishman with a nied land efficient skipper. You know how a British captain often is with his tose right down on his job, with no thought except his cargo and his hokout for submarines and cruisers? We'l, evidently this chap couldn't he bothered with a funny old Norwe glab windjammer. Salls set and mo for running, we held across his course and get in front of him. Now, at sea. a falling vessel niways has the right of way over a steamship because the latter can maneuver more rapidly But that meant nothing to this steam ship. She swerved not an inch. and seemed waite rentent to run us down.

We had to Jib and let him go in the wlad, or there would have been a col itsion. The Englishman passed us at three hundred yards.

The German dag was elimbing swiftly to our musthead, "Fire," I communded, "let's see it

that will make him change his mind." Gradys Royal, bound from Cardlif The gun boomed and a shell went screaming over the steamer. Ouenos aires. I told blio that, much "By Jue," I said, "he sticks to his

us I disliked sending any ship to the opinions. The steamer's stacks belched fresh clouds of smoke. Her course changed

not ut all. Another shot, this one, by way of imphasis, just over the smokesinch. The stenmer turned into the wind.

"A wise baby, that skipper," commented Lendomann sacarstically, "He knows a windjammer can't sall against the wind," We, of course, couldn't enten him in

chose, but our range was still pointblank A shot through the smake stack and a couple into the hull. We could see the crew running around wiblig. A stren was screening. A shell exploded on deck. The proper for stopped, and the steamer slowed down and lay rolling in the trough of the sen.

The Englishman must have known that he hadn't a ghost of a chance to escape under fire at such close range. First of all he had been discourteous in ignoring our friendly signals. Then he had violated the rules of ocean triffle in not styln, out elipsor the right of way. And now in cold identification he had endangered the life of his crew. According to the unwritten rules of elliportic among pirates and ranters, it was up to us to jest out a bout and board a prize. But lesterd I alguated the elector?

"Coptain, come aboard?" Let him come over to us. If he's such a bough gue, well show him who reles the waves in this part of the Atlantic.

It was frome, Finally, I had to laugh. The ship was the Lundy by land lound for trakee with a carne of Madagastar sugar. An Exportant turge, sure clasualt. Sugar was seater in all the consisters at car, and we tiermans, whose supply of sagar roastated mostly of a great longing for it. could sympathize with the captains engerhess to get the previous narchandise to jort. When the fast our struck the Lundy Leant, the eres. black, brown, and sellow, fell into a puble. With chells falling running the solp or shoring with it round following to them. The captain reaccinot atorical, for that was on the good It did. So be seized the below blosself. Just then a shot lift the rudder chain, or I when he turned the wheel mulling happened. The crew started taking to the boats, and the touch old sait was lest alone on dock, that signal for his to come on local left him help less. His lauts were out there with the crew floundering at the part. The sea was pitching and robing, and they nice so trighten I they could hardly

to a He pared the bridge with his ha dhag in his tard, a solitory, woebecome figure. We finally had to send

un our deck be get a steen, formal

"Any casualties among your men, captain?"

"No, worse luck. Not a man scratched, by Joe, and the blighters scorried around like rabbits at a dog show. Look at them in the boats out there. They haven't got here yet, the bessars. Let me at that gun, by Joc.

and I'll sink them." It was hard not to sympathize with him, but still his conduct had appar-

ent'y been Inexcusable. "Why ald you endanger your men's llives like that, eaptain? It not only was the height of folly, but it was in-

Jur then our ship's surgeon, Dactor Pletch, came along.

"Hello, captain," "liello, doctor." They greeted each other like longlost friends, save that there was

shadow of unensiness in the captain' fraternal demonstrations. Continued next week.

Hard to Shake Belief in Good and Bad Luck

It is hard to overcome such inbred myths as the "thirteen" superstition To any reasonable person you can demonstrate in two minutes that there is nothing in it. But these he liefs in good and had luck are not kept going by people capable of renson. They are the hellefs of the unthinking mass with whom it is useless to argue.

Parnell, the famous Irlsh states man, was one of the many prominent politicians who have been atraid of 13. His mother was responsible for it. Yet she was a woman of char-

acter and intellect. One day she was getting into a train at Duhlin when she noticed the number of the conch was 30. "I won't go in that," she declared flatly; "It's unlucky." The lord mayor, who was seeting her off. nsked why, "Because of multiple of 13," she said, and climbed into another carriage-in third-class one, although she had n-first-class ticket. There was no other first-class coach but the "unlucky" one.

#### Character Molded by

**Example of Parents** Do you ever wonder what you would have been if your father and mother had been different? I often

My own father and mother fived what they tried to teach their two children; my sister and myself, To have so consistent an example of absolute integrity would be of incalculable worth to any child; I never can sufficiently express my debt of gratitude to them. My father was a "natural born"

scientist, an indefatigable searcher for the relation between cause and effect. It was he that taught me to ask the why of everything; to want to know and to understand things. Both my father and my mother judged persons by the essentials of character; such things as honesty kindness, uprightness; by what persons were-not by how much money

they had or how much show they

could make.-Mary B. Mullett In the

American Magazine.

#### NOTICE

The subscriber hereby gives she has been duly appointed ccutrix of the estate of

James H. McLeod, late of Upl in the County of Oxford, dec without bond. All persons havin mands against the estate of ceased are desired to present the for settlement, and all indebted i are requested to make payment in ntely.
